

CAPITOLATO COLLEZIONE

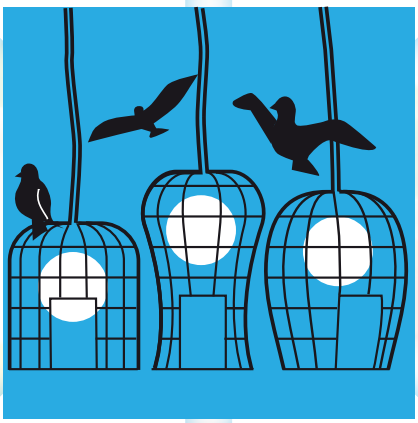

Frame 102 - T

CAMPESATO 1920

Frame 102 - T

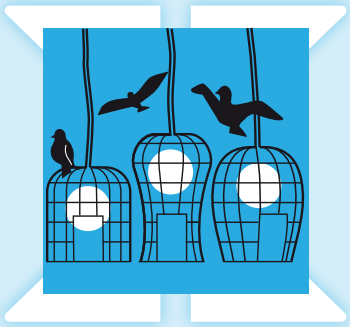

RIDEFINIAMO I PUNTI DI VISTA

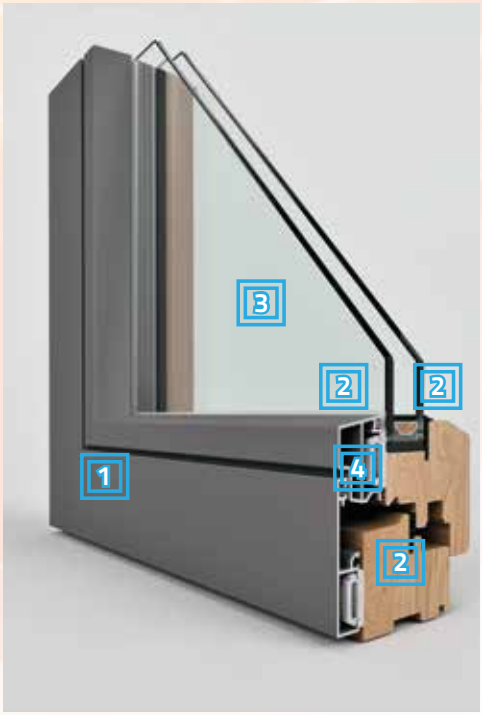

Riuscire a vedere da diverse angolature le sfumature della realtà, magari solo per adottare il punto di vista più vicino al nostro vero io. Comunicando tra esterno ed interno in soluzione di continuità.

LA COLLEZIONE:

Frame 102 - T (Triangolare)

LE CARATTERISTICHE DELLA COLLEZIONE FRAME 102 - T

1. **ALLUMINIO** saldato solo su cartella RAL, per i decorati legno e anodizzati previsto alluminio cianfrinato.
2. **GUARNIZIONI CON COMPONENTI A BASE DI TECNOPOLIMERI AD ALTE PRESTAZIONI** (-40° /+ 140°), colore **NERO**.
3. **VETROCAMERA** disponibili in varie applicazioni, da comporre a seconda della necessità bassi emissivi, acustici, antisfondamento, antinfortunistici, selettivi, bicamera,...
4. **INTERCAPEDINE** tra i due profili generata dalle clips: evita la formazione di condensa

SICUREZZA scelta fra **3 LIVELLI di sicurezza:**
3 LIVELLI di SICUREZZA:

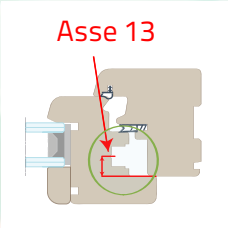

Sicurezza Start (RC1) | Sicurezza Premium (RC2) | Sicurezza Blindata **POSEIDON TT** (RC3)

2. ASSENZA DI GIUNZIONI NELLA CANALINA
3. TAGLIO A 90° NEGLI ANGOLI

TERZA GUARNIZIONE ACUSTICA INTERNA A VISTA
(possibilità di inserimento su richiesta)

SICUREZZA

Possibilità di scelta per la tua finestra fra **3 LIVELLI DI SICUREZZA**:

Sicurezza Start (RC1)

Livello minimo consigliato per le finestre di casa propria; indicata solo per serramenti difficilmente raggiungibili.

Sicurezza Premium (RC2)

Adatta per contesti urbani e comunque non isolati; protegge serramenti facilmente attaccabili con attrezzi poco ingombranti.

Sicurezza Blindata POSEIDON TT (RC3)

Pensata per chi cerca la massima sicurezza in contesti isolati; ideale per serramenti facilmente attaccabili con attrezzi ingombranti.

Sicurezza Blindata

POSEIDON TT (RC3)

Pensata per chi cerca la massima sicurezza in contesti isolati; ideale per serramenti facilmente attaccabili con attrezzi ingombranti.

ECCO PERCHE' E' COSI' RESISTENTE

1 FISSAGGIO

Poseidon TT viene fissato dall'interno dell'area vetro tramite una piastra, così, in caso di effrazione, **si supera il limite di tenuta allo strappo delle viti dal legno.**

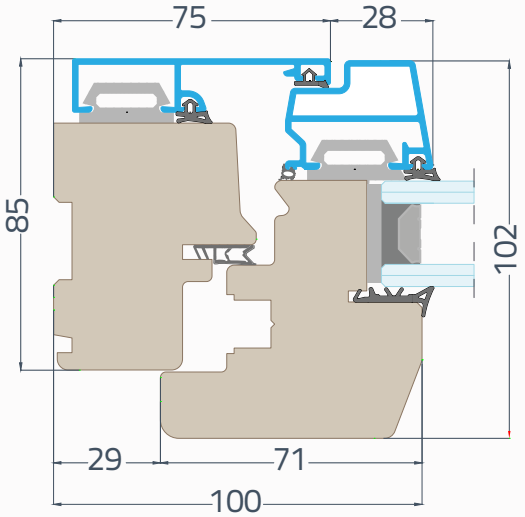

2 IMPOSSIBILE SCARDINARE L'ANTA

Il **doppio gancio contrapposto** impedisce allo scassinatore di scardinare l'anta sia per sollevamento, che per strappo.

Frame 102 - TRIANGOLARE T

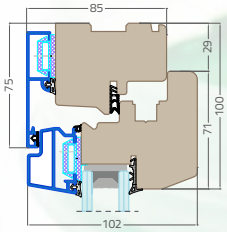

- **ALLUMINIO CON ANGOLI SALDATI**
  (SOLO SU CARTELLA RAL)

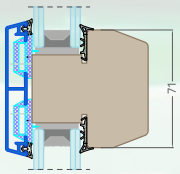

PROFILI UTILIZZATI - SEZIONI VERTICALI

ALLUMINIO CON ANGOLI SALDATI SOLO SU CARTELLA RAL
